

Simplicity: Paying for Health Care with Improved Medicare for All

One payer and one plan establishes the simplest, lowest-cost way to pay for health care; all Americans will be covered.

There may be some out-of-pocket payments:
Example: paying the difference in cost for a model of cane that is different than the model that is automatically provided

A set of funding options that will be considered.

Existing sources of federal
govt health care revenues

Employers and Employees Medicare taxes
updated to help cover everyone

Small Tax on stock & bond transactions
and on **unearned income**

Personal income tax increase
for very high income persons

95+% of money
goes to
health care.

**Health Care
Providers**

Timely payments
will cover bills for
medically-necessary care.

*Employees continue to pay a Medicare tax.
But Americans will pay no premiums,
deductibles, co-pays, or coinsurance.
There will be no major medical bills.*
